GRANT & AWARD MANAGEMENT SOFTWARE FOR K12 SCHOOLS

GrantsNow is a Grant Funding Management solution built on the Oracle Cloud PaaS, covering the entire Grants Administration project journey, including:

Identifying funding opportunities from leading Funders and applying for competitive bids

Handling ethical review and approval processes.

Costing & Pricing for preparing proposals for submission to Funders

Accepting Grants Awards and adjustments prior to sending it to your finance system.

Contract document management, negotiation, approval workflows & digital signatures.

Full Reporting suite for KPI metrics management & analytics to make informed decisions.

Post Awards Reporting and budget monitoring for awards

Handling the "claims" process for each individual school to apply for their allocation of a funding award

Ongoing budget monitoring to deliver accurate reporting to Funders & Donors on utilisation of revenues.

The system has been designed to seamlessly integrate via APIs with the current IT infrastructure of any institution, to maximise the efficiency of managing all aspects of your Grant funded projects.
